Education

Galgotias University **Greater Noida, Uttar Pradesh**

Bachelor of Technology (B.Tech), Computer Science and Engineering *2026–2030*

Technical Skills

Programming Languages: C++, Python, JavaScript

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Web Development: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js

AI & Machine Learning: Machine Learning, Deep Learning, Natural Language Processing (NLP)

Libraries: Scikit-learn, TensorFlow, NumPy, Pandas

Databases: MySQL, MongoDB

Developer Tools: Git, GitHub, VS Code, Linux, Jupyter Notebook

Projects

Heart Disease Prediction System — Python, Scikit-learn, TensorFlow, Pandas, NumPy

- Built a machine learning model to predict heart disease using clinical datasets.
- Performed preprocessing, feature engineering, model training and evaluation.
- Compared multiple classification algorithms using Accuracy, Precision, Recall and F1-score.

Inventory Management System — C++, STL, OOP

- Developed a console-based inventory management system using C++.
- Implemented inventory tracking, stock management, product search and billing.
- Used STL containers and object-oriented design for modular architecture.

Achievements

- Solving Data Structures and Algorithms problems regularly.
- Learning Full Stack Development and Machine Learning.
- Strong interest in Competitive Programming.

Areas of Interest

Machine Learning • Artificial Intelligence • Full Stack Development • Competitive Programming • Software Engineering
